On August 28, we unveiled a new mark, one that embodies the connection between technology and humanity. CTA and CES now share a mark. Official CES exhibitors are authorized to use the mark, however, you must ensure you are using the correct one and have the correct usage rights.

We've added this new section to resources to help you find guidance on logos usage, marketing toolkits and more to help you plan for these changes. Check your exhibitor dashboard throughout the season for the latest information. If you have questions at any time, please reach out to your sales representative.
